

# Cancer Translational Research

(Revised February 17, 2026)

Biomarker research for cancer immunotherapy	<ul style="list-style-type: none"><li>● Minimally invasive biomarkers related to immune activity and tumor destruction in the tumor microenvironment</li></ul>
Biomarker research technology for cancer immunotherapy	<ul style="list-style-type: none"><li>● Innovative technology for identifying minimally invasive biomarkers in the tumor microenvironment</li></ul>
Bioinformatics technology for cancer immunotherapy	<ul style="list-style-type: none"><li>● Technology to Identify parameters for stratifying responder patients from a vast amount of information</li></ul>
