

Shionogi has been recognized as one of the highest-ranking companies on the Supplier Engagement Rating (Climate Change) by CDP

OSAKA, Japan, March 16, 2023 - Shionogi & Co., Ltd. (Head Office: Osaka, Japan; Chief Executive Officer: Isao Teshirogi, Ph.D.; hereafter "Shionogi") announced that, Shionogi was recognized as one of the highest-ranking companies on the Supplier Engagement Rating (SER) (Climate Change) by CDP¹, a global non-profit organization working on environmental information disclosure. Shionogi has been recognized as a Supplier Engagement Leader for the third consecutive year. It received high marks on the heels of being ranked as A for Climate Change and for Water security in December 2022².

SER evaluates companies in four categories related to Climate Change: 1) governance, 2) targets, 3) Scope 3 emissions, and 4) supplier engagement. In 2022, about 650 companies in the world, including 130 Japanese companies, were recognized on the Supplier Engagement Leader as companies implementing strategies and taking actions to reduce Greenhouse Gas (GHG) emissions and manage climate risk in their supply chains.

SHIONOGI Group identified *Protect the Environment* as a corporately material issue to be addressed and set medium- and long- term action targets (environment) based on [SHIONOGI Group Heritage \(The Company Policy of SHIONOGI\)](#), [SHIONOGI Group Code of Conduct](#) and [SHIONOGI Group EHS³ Policy](#). Moreover, we engage with our business partners and require them to adhere to [Shionogi Group Business Partner Code of Conduct](#). We believe these continual efforts were recognized by CDP.

SHIONOGI Group will continue to progress and expand sustainability activities toward the achievement of the SDGs (Sustainable Development Goals) and continuously work to ensure that *corporate growth* is aligned with *contribution to a sustainable society* through our business. We will strive continuously to grow as a company that contributes to all of our stakeholders.

Forward-Looking Statements

This announcement contains forward-looking statements. These statements are based on expectations in light of the information currently available, assumptions that are subject to risks and uncertainties which could cause actual results to differ materially from these statements. Risks and uncertainties include general domestic and international economic conditions such as general industry and market conditions, and changes of interest rate and currency exchange rate. These risks and uncertainties particularly apply with respect to product-related forward-looking statements. Product risks and uncertainties include, but are not limited to, completion and discontinuation of clinical trials; obtaining regulatory approvals; claims and concerns about product safety and efficacy; technological advances; adverse outcome of important litigation; domestic and foreign healthcare reforms and changes of laws and regulations. Also for existing products, there are manufacturing and marketing risks, which include, but are not limited to, inability to build production capacity to meet demand, lack of availability of raw materials and entry of competitive products. The company disclaims any intention or

obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

1. CDP

CDP is a global non-profit that runs the world's environmental disclosure system for companies, cities, states and regions. Founded in 2000 and working with more than 680 financial institutions with over \$130 trillion in assets, CDP pioneered using capital markets and corporate procurement to motivate companies to disclose their environmental impacts, and to reduce greenhouse gas emissions, safeguard water resources and protect forests. Nearly 20,000 organizations around the world disclosed data through CDP in 2022, including more than 18,700 companies worth half of global market capitalization, and over 1,100 cities, states and regions. Fully *Task Force on Climate-related Financial Disclosures (TCFD)* aligned, CDP holds the largest environmental database in the world, and CDP scores are widely used to drive investment and procurement decisions towards a zero carbon, sustainable and resilient economy. CDP is a founding member of the *Science Based Targets initiative (SBTi)*, *We Mean Business Coalition*, *The Investor Agenda* and the *Net Zero Asset Managers initiative (NZAMI)*.
