

Recognized as One of the Highest-Ranking Companies on the Supplier Engagement Rating (Climate Change) by CDP for the Fourth Consecutive Year

OSAKA, Japan, March 7, 2024 - Shionogi & Co., Ltd. (Head Office: Osaka, Japan; Chief Executive Officer: Isao Teshirogi, Ph.D.) is pleased to announce that it has been recognized as one of the highest-ranking companies on the Supplier Engagement Rating (SER) (Climate Change) by CDP¹, a global non-profit organization working on environmental information disclosure. We have been selected as a Supplier Engagement Leader for the fourth consecutive year. It received high marks on the heels of being ranked as A for Climate Change and for Water security in February 2024².

SER evaluates companies in four categories related to Climate Change: 1) governance, 2) targets, 3) Scope 3 emissions, and 4) supplier engagement. In 2023, over 450 companies in the world, including approximately 110 Japanese companies, have been recognized on the Supplier Engagement Leader as companies proactively working with their suppliers to ensure climate change action cascades down their supply chains.

The SHIONOGI Group has identified *Protect the Environment* as a material issue, based on the [SHIONOGI Group Heritage \(The Company Policy of SHIONOGI\)](#), and [SHIONOGI Group Code of Conduct](#). We have set ambitious medium- and long-term environmental targets, guided by the [SHIONOGI Group EHS³ Policy](#) and the [SHIONOGI Group EHS Code of Conduct](#). Moreover, we engage with our business partners and require them to adhere to [SHIONOGI Group Business Partner Code of Conduct](#). We believe these continual efforts were recognized by CDP.

The SHIONOGI Group remains dedicated to advancing and expanding sustainability initiatives in line with the United Nations' Sustainable Development Goals (SDGs). We will continue to ensure that our corporate growth aligns with our contribution to creating a sustainable society through our business practices. We are aiming to evolve into a company that brings value to all our stakeholders, as we persistently strive for growth and progress.

References

1. CDP

CDP is a global non-profit that evaluates and scores companies and governments in the fields of Climate Change, Water Security, and Forests based on requests from global investors, companies, and others. Founded in 2000 and working with more than 740 financial institutions with over \$136 trillion in assets, CDP pioneered the use of capital markets and corporate procurement to motivate companies to disclose their environmental impacts, and to reduce greenhouse gas emissions, safeguard water resources, and protect forests. Over 24,000 organizations around the world disclosed data through CDP in 2023, including more than 23,000 companies worth two-thirds of global market capitalization, and over 1,100 cities, states, and regions. Fully aligned with the *Task Force on Climate-related Financial Disclosures (TCFD)*, CDP holds the largest

environmental database in the world, and CDP scores are widely used to drive investment and procurement decisions towards a zero-carbon, sustainable, resilient economy. CDP is a founding member of the *Science Based Targets initiative (SBTi)*, the *We Mean Business Coalition*, *The Investor Agenda*, and the *Net Zero Asset Managers Initiative (NZAMI)*.

Forward-Looking Statements

This announcement contains forward-looking statements. These statements are based on expectations in light of the information currently available, assumptions that are subject to risks and uncertainties which could cause actual results to differ materially from these statements. Risks and uncertainties include general domestic and international economic conditions such as general industry and market conditions, and changes of interest rate and currency exchange rate. These risks and uncertainties particularly apply with respect to product-related forward-looking statements. Product risks and uncertainties include, but are not limited to, completion and discontinuation of clinical trials; obtaining regulatory approvals; claims and concerns about product safety and efficacy; technological advances; adverse outcome of important litigation; domestic and foreign healthcare reforms and changes of laws and regulations. Also for existing products, there are manufacturing and marketing risks, which include, but are not limited to, inability to build production capacity to meet demand, lack of availability of raw materials and entry of competitive products. The company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
