

## **Recognized with the Double A List for Leadership in Corporate Transparency and Performance on Climate Change and Water Security by CDP**

**OSAKA, Japan, December 11, 2025** - Shionogi & Co., Ltd. (Head Office: Osaka, Japan; Chief Executive Officer: Isao Teshirogi, Ph.D.) is pleased to announce that it has been recognized for its leadership in transparency and performance in two key areas of corporate sustainability—Climate Change and Water Security—by the international non-profit organization CDP. We have been selected for the “A List” in the field of Climate Change for the fourth consecutive year, and for Water Security for the first time in two years.

The SHIONOGI Group has identified Protecting the Environment as a material issue, based on the SHIONOGI Group Heritage (The Company Policy of SHIONOGI) and the SHIONOGI Group Code of Conduct<sup>1</sup>. We have set ambitious medium- and long-term environmental targets, guided by the SHIONOGI Group EHS Policy<sup>2</sup> and the SHIONOGI Group EHS Code of Conduct<sup>3</sup>. Specifically, we prioritize addressing environmental challenges such as climate change, resource conservation and circularity, water use, circular economy, and antimicrobial resistance (AMR).<sup>4,5</sup>

CDP's assessment recognizes our unwavering commitment to reducing greenhouse gas emissions, preserving water resources, mitigating flood risks, and responsibly managing wastewater to minimize the release of antimicrobials into the environment as part of our comprehensive AMR initiatives. We are honored that our continuous efforts have been highly esteemed.

Moving forward, the SHIONOGI Group remains dedicated to advancing and expanding sustainability initiatives in line with the United Nations' Sustainable Development Goals (SDGs). We will continue to ensure that our corporate growth aligns with our contribution to creating a sustainable society through our business practices. We are aiming to evolve into a company that brings value to all our stakeholders, as we persistently strive for growth and progress.

### About CDP

CDP is a global non-profit that runs the world's only independent environmental disclosure system. As the founder of environmental reporting, we believe in transparency and the power of data to drive change. Partnering with leaders in enterprise, capital, policy and science, we surface the information needed to enable Earth-positive decisions. We helped more than 24,800 companies and almost 1,000 cities, states and regions disclose their environmental impacts in 2024. Financial institutions with more than a quarter of the world's institutional assets use CDP data to help inform investment and lending decisions. Aligned with the ISSB's climate standard, IFRS S2, as its foundational baseline, CDP integrates best practice reporting standards and frameworks in one place. Our team is truly global, united by our shared desire to build a world where people, planet and profit are truly balanced.

**Forward-Looking Statements**

*This announcement contains forward-looking statements. These statements are based on expectations in light of the information currently available, assumptions that are subject to risks and uncertainties which could cause actual results to differ materially from these statements. Risks and uncertainties include general domestic and international economic conditions such as general industry and market conditions, and changes of interest rate and currency exchange rate. These risks and uncertainties particularly apply with respect to product-related forward-looking statements. Product risks and uncertainties include, but are not limited to, completion and discontinuation of clinical trials; obtaining regulatory approvals; claims and concerns about product safety and efficacy; technological advances; adverse outcome of important litigation; domestic and foreign healthcare reforms and changes of laws and regulations. Also for existing products, there are manufacturing and marketing risks, which include, but are not limited to, inability to build production capacity to meet demand, lack of availability of raw materials and entry of competitive products. The company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.*
